

N Nord Modules™

TM153

Top Mover

- BASIC -

TM153

Distributor

Nord Modules produces standard modules in industrial quality for automated productions. The TM153 with a lifting function is placed above the mobile robot MiR100 or MiR200. With its specially designed slats it can merge with our gate modules, connecting the mobile robot with production lines and storage systems.

Your key benefits

- Safe and reliable transportation of objects - designed according to international safety standards
- Cost-efficient delivery of payloads up to 153 kg / 337 lbs
- Touch screen with user-friendly interface to easily add customer-specific functions and programs
- Rubber-lined aluminum slats, making sure that the object is always placed securely on the TM153
- Flexible standard product designed to simply adjust to specialised work processes
- Simply set up and running within a few days - providing a complete solution with our gates
